INSTRUSAFE

INSTRUMENT PROTECTION TRAYS

Your Trusted Leader for Instrument Longevity.

Innovia Medical is a **family of specialty surgical companies** that are passionately committed to partnering with medical professionals to help elevate the delivery of patient care and improve clinical outcomes.

ELEVATING CARE. IMPROVING OUTCOMES.

Innovia Medical companies develop and manufacture a portfolio of product solutions designed with both the medical professional and their patients in mind, to deliver care that:

- Saves time for both the medical professional and patient
- Delivers a consistent and predictable care experience
- Improves patient confidence with reduced recovery times and less discomfort

Innovia Medical does this through a commitment to innovation leadership, unsurpassed product quality and a dedication to provide responsive, personalized customer service.

INNOVATION LEADERSHIP.

Innovation leadership is fueled through our dedication to collaboration with medical professionals. We regularly seek feedback and input from physicians, nurses, and other medical professionals through product research, testing and development.

This allows us to truly understand the solutions medical professionals need, and guides our innovative culture focused on inventing new, industry-leading solutions and reinventing current solutions that make ordinary products extraordinary, across the specialty surgery spectrum.

UNSURPASSED PRODUCT QUALITY.

Our products deliver proven solutions and dependability which is the result of rigorous quality control and a relentless commitment to ongoing manufacturing improvements. We use only the highest quality materials and subject all products to rigorous inspection protocols. This is why we're proud to have so many customers who have continued to rely on our solutions for more than forty years.

RESPONSIVE, PERSONALIZED CUSTOMER SERVICE.

From our sales representatives to our customer service team, every associate at Innovia Medical strives to deliver an unrivaled customer experience. This begins by ensuring that each customer receives the product that is right for their specific needs. We provide assistance through technical support and live customer service representatives with extensive product knowledge, available throughout the day. We deliver quick and thorough responses, every time—from order and shipping confirmations to delivery date communications and more ensuring continuous satisfaction.

We know you're committed to providing the best patient care experience possible and that's why we commit to being your trusted partner helping you every step of the way. At Innovia Medical, we are not just products, we are part of the patient care solution.

THE INSTRUSAFE ADVANTAGE: 360° OF PROTECTION

The InstruSafe® Advantage

360° of Protection

The use of complex and delicate instrument sets is a new reality in which sterile processing and the operating room live. Intricacy of surgical instrumentation continues to increase, and so does the cleaning and sterilization process. Now, healthcare facilities face the challenge of reprocessing instruments safely and efficiently while also meeting the demand for fast turnaround. Keeping these sets organized and protected upon arrival in the operating room creates a challenge for all involved. Relieve yourself of these daily obstacles with InstruSafe Trays—an everyday solution for the intricacies of your instrument sets.

We have spent over 30 years understanding the use cycle and improving outcomes. With the use cycle in mind, we have created a product that eliminates common frustrations associated with instrument sets. The products in this catalog are a compilation of our hard work. As you journey through the pages, let us help you solve your everyday instrument problems.

Summit Medical's most recent FDA 510(k) clearances and product advancements are a testament of our dedication to our customers' satisfaction. We wouldn't have continuing success without the healthcare community we serve. Focus, determination and your support will continue our impact on patient care for decades to come.

Designed to organize and protect from the point of operating room use to decontamination, our solutions benefit everyone who handles our products.

FDA 510(k) Clearance

Designed to ensure optimal sterilization, InstruSafe Trays have undergone rigorous testing before receiving multiple FDA 510(k) clearances. Cleared for various sterilization cycles, these reliable trays give hospitals and healthcare facilities even more options when it comes to organizing, sterilizing, and protecting their instruments.

For the most up-to-date list of cleared cycles, visit www.instrusafe.com/validations.

POINT CAMERA TO SEE VALIDATIONS

DECONTAMINATION

Instruments are individually protected going into the wash cycle and the trays are designed with large perforations, allowing maximum detergent and water flow.

TRAY PREPARATION

Each tray is designed specifically for the instruments within it, providing individual locations for each one. This protects them from harming the technician, from damaging themselves and from puncturing or jeopardizing the integrity of the sterile barrier.

STERILIZATION

The large amount of perforations in our trays provide superior sterilant penetration. Many of our silicone parts are also designed with minimal contact points and additional ventilation in each slot that match our tray holes to improve sterilant penetration to each individual instrument.

TRANSPORTATION

Soft and durable silicone holders in the base and cover secure instruments to prevent shifting and provide 360 degrees of protection. InstruSafe Trays help to avoid unnecessary damage and to present an organized instrument set every time.

OPERATING ROOM USE

Each instrument is easily identifiable and placed in a singular slot for surgical presentation and tracking at the end of a procedure.

THE INSTRUSAFE ADVANTAGE

Look Familiar?

Unfortunately, this is what most sterile processing departments have come to know. The familiarity and acceptance of these messy, hazardous baskets makes us cringe! Why, you ask? Because the minimal organization and protection of surgical instruments practiced in many facilities presents numerous risks to the individuals that come in contact with them, as well as to the instruments themselves.

DISADVANTAGES OF MESSY BASKETS

- POTENTIAL TO COMPROMISE STERILE BARRIER BY POKING THROUGH WRAP
- DANGEROUS TO TRANSPORT FROM THE O.R. TO THE SPD
- MINIMAL INSTRUMENT PROTECTION AND ORGANIZATION
- DIFFICULT TO COUNT AND TRACK INSTRUMENTS
- BASKETS NEED FREQUENT REPLACEMENT
- ADDS TIME TO SURGICAL SET-UP
- BROKEN INSTRUMENTS IF DROPPED
- HIGH RISK FOR FINGER POKES
- POOR SURGICAL PRESENTATION
- HARD TO FIND WHAT YOU NEED
- MISSING/LOST INSTRUMENTS
- UNNECESSARY REPROCESSING
- DAMAGED INSTRUMENTS
- WASTE OF SPACE

EXPECT MORE.

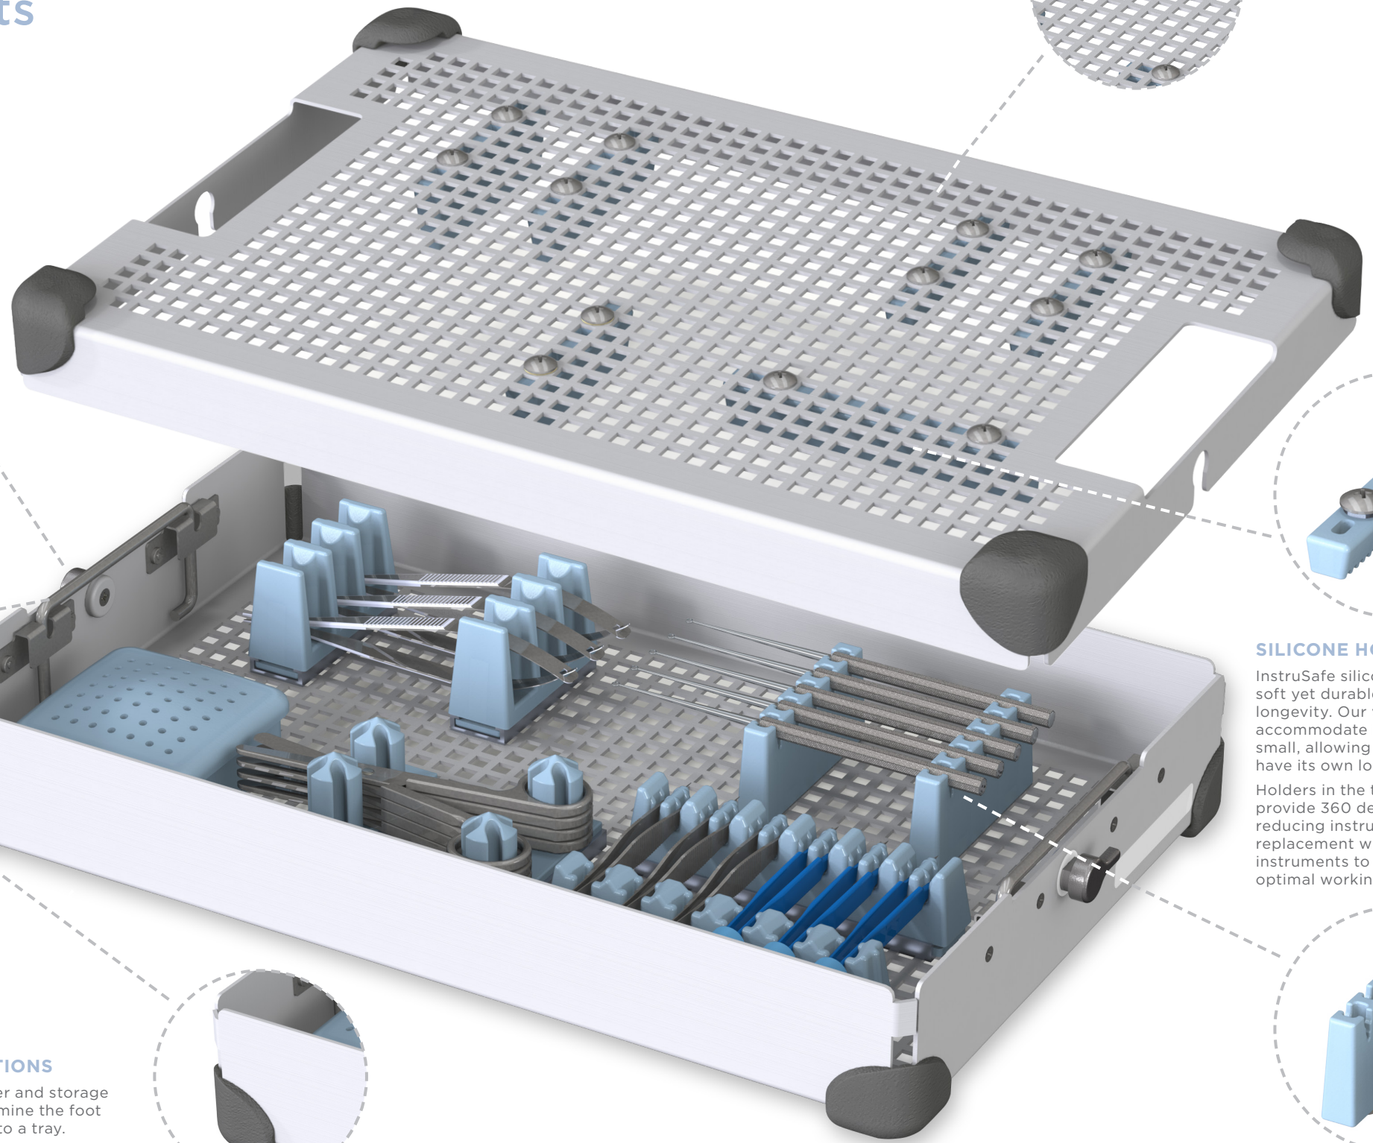
For these reasons and many more, InstruSafe Trays offer custom solutions to meet each customer's specific needs. We think it's time for everyone to expect more from their trays.

THE INSTRUSAFE ADVANTAGE

Absolute Protection

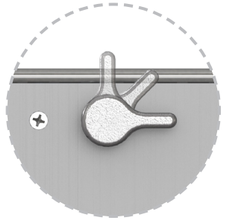
Trusted Solutions + Superior Results

POINT CAMERA TO READ IFU



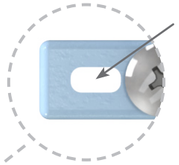
PERFORATIONS (GRID PATTERN)

Each tray contains a large quantity of perforations that provide maximum sterilant penetration and ventilation.



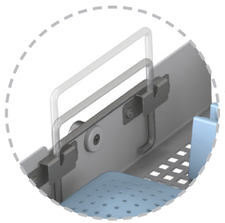
QUARTER TURN LATCH

Secures the tray cover to the tray base, providing visual indication of the open/close position. Our off-set latch hole aligns the cover in the correct position ensuring the silicone holders match up with the instruments below.



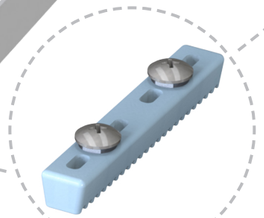
VENTILATION

Our unique silicone design has channels that align with our perforations allowing detergent and sterilant to flow through the holder and access the entire instrument.



RETRACTABLE HANDLES

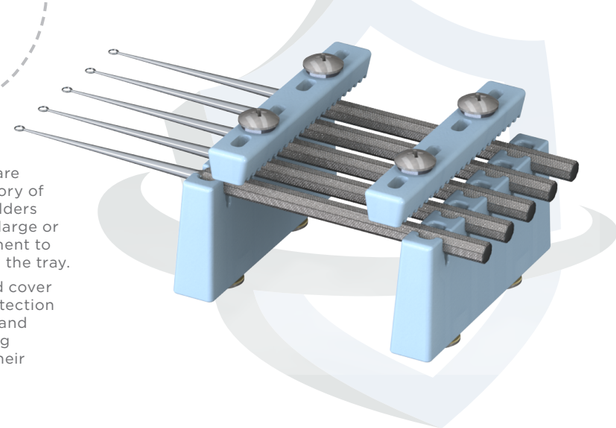
Our multi-functional space-saving design fits into rigid containers making it effortless to remove the tray.



SILICONE HOLDERS

InstruSafe silicone holders are soft yet durable, with a history of longevity. Our variety of holders accommodate instruments large or small, allowing each instrument to have its own location within the tray.

Holders in the tray base and cover provide 360 degrees of protection reducing instrument repair and replacement while delivering instruments to the O.R. in their optimal working condition.

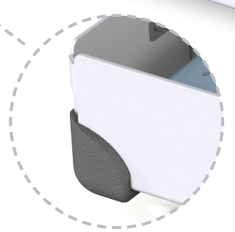


TF FOOT

Our Tall Foot fits into rigid containers providing clearance for the filter in the base.

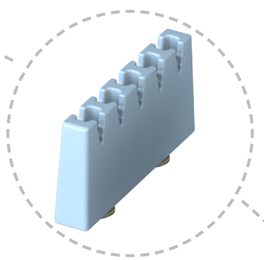
FOOT OPTIONS

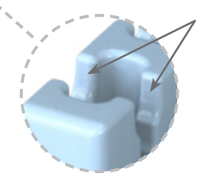
Sterile barrier and storage needs determine the foot type built into a tray.



R FOOT

Rounders Corner Guards prevent tears in sterilization wrap during storage and transportation.





REDUCED CONTACT POINTS

Each silicone holder is individually designed with ridges and channels built to reduce contact with the instrument while securely holding the instrument in place.

ORDER PROCESS: THE INSTRUSAFE WAY

5 Simple Steps

If one of our preconfigured tray designs does not fit your needs let our product experts design a custom tray with our effortless process below.

1 ASSESS
An InstruSafe Representative conducts a free, on-site assessment of your instrument set.

2 GATHER
Your instrument set specifics and inputs are gathered by our team of experts.

3 DESIGN
Using your inputs, our product specialists build a tray design with you and your instrument set in mind.

4 EVALUATE
You be the judge! Evaluate the new tray design while it's loaded with your instrument set. Let us know your thoughts and we will make any and all adjustments necessary!

5 COMPLETE
It's all yours! Once complete, each custom tray is assigned its own unique part number, making it simple and easy for you to reorder in future.

HOW TO USE THE CATALOG

The colored headers identify which procedure the instrument set you're looking at is used for. The trays on each page are differentiated by preconfigured or custom configured with the symbols shown in the key below. Some trays have several layers including a cover, shelves, baskets, and a base. The custom configured tray examples included in the catalog are a small representation of the trays our local representatives have built for facilities around the world.

Foot Options

R Foot: Rounders Corner Guards—to be used with wrap

TF Foot: Tall Foot fits into rigid containers

Rounders® Corner Guards

Rounded, medical grade corner guards affix to InstruSafe Tray corners to reduce potential damage to the sterile wrap barrier. Rounders are included with the purchase of designated tray orders, but can also be ordered at any time and easily added to all InstruSafe Trays.

ROUNDERS CORNER GUARDS

Small Rounders	
Kit of Four	IN-7334
Large Rounders	
Kit of Four	IN-7337

- Kits can be purchased to upgrade existing trays
- Affix to tray with screws (included in kit)
- Designed to fit all InstruSafe Trays
- Rounded, medical grade silicone corner guard
- Help avoid compromised sterility in the O.R.
- Environmentally and economically efficient
- Impact resistant
- US Patent #9119611 | #D783856

Tall Foot

Designed to affix to trays that are intended to be sterilized within a rigid container. Tall Feet are included with the purchase of designated tray orders, but can also be ordered at any time and easily added to most InstruSafe Trays.

TF FOOT KIT

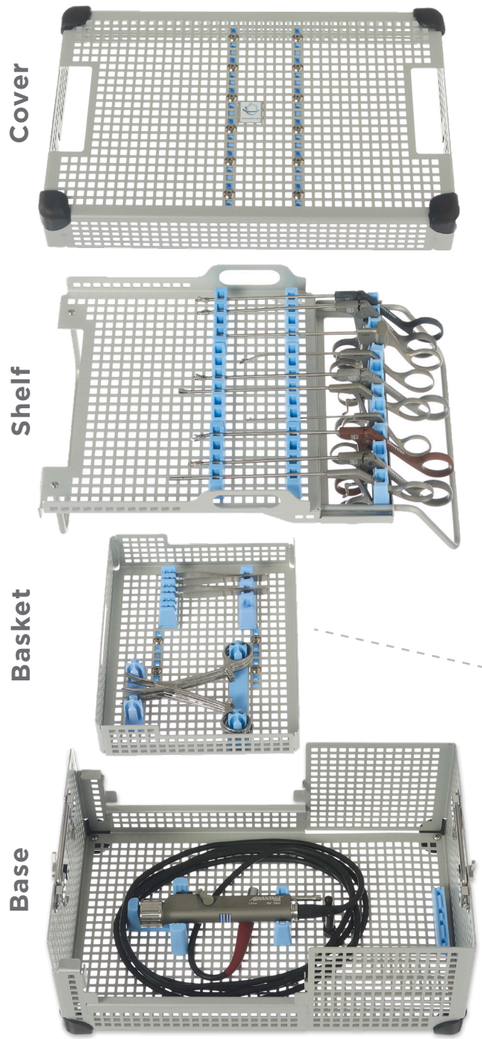
Kit of Four	IN-7338

- Kits can be purchased to upgrade existing trays
- Affix to tray with screws (included in kit)
- Designed to fit most InstruSafe Trays

ARTHROSCOPY

Preconfigured Tray for
Arthroscopy

This three-level tray is equipped for both small and large arthroscopic instrument sets. Our tray is sized to fit most three-quarter size containers or can be wrapped for your convenience.



ARTHROSCOPY INSTRUMENT TRAY

Arthroscopy Instrument Tray

Holds:
A combination of up to 12 of the following instruments:

- Punches
- Ring Handle Instruments
- Other Associated Endoscopic Instruments
- Rongeurs
- Graspers

15 ¼ L x 9 ⅝ W x 5 ¾ H (in)	387 L x 244 W x 146 H (mm)
Wrapped Foot IN-2846-R	Container Foot IN-2846-TF

Expand capacity with positionable Hold-Its and Hold-Downs™ silicone instrument holders.

Multi-level to accommodate a high quantity of instruments.

Basket and base can be customized to accommodate specific instrumentation.

ENT SYSTEMS

Since the mid-1980's, we have offered a complete solution for fine and delicate ear instrumentation through our Middle Ear System. We are proud to claim this as our very first InstruSafe product. Our modules are designed to specifically fit each instrument and can be used individually or in combination, to organize and protect an entire instrument set.

MIX AND MATCH OUR MODULES FROM PAGES 23-24 TO FIT YOUR INSTRUMENT SET, CREATING YOUR UNIQUE ENT SYSTEM!

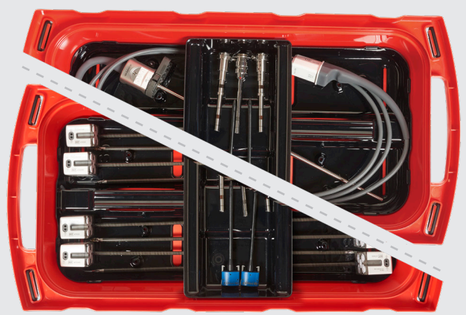
- Economical and creates a dedicated space for horizontally soaking robotic instruments
- Made in the USA

LIFTING TRAY

CONFIGURATION EXAMPLES

Single Endoscope Configuration
Holds: 1 da Vinci Xi or SP Endoscope



Multiple Instrument Configuration
Holds: up to 8 da Vinci Xi or SP EndoWrist Instruments

Heavy Duty Transport Containers

These containers are designed with a silicone gasket and locking cover to reduce spills and leakage while transporting contaminated instruments. They are similar to our other transport containers but have a more robust construction and feature stainless steel hinges and latches that can be easily undone with just one hand.

HEAVY DUTY TRANSPORT CONTAINER

Short Container	
20 ½ L x 12 ⅝ W x 3 ¾ H (in)	521 L x 321 W x 95 H (mm)
IN-PIC-15	

HEAVY DUTY TRANSPORT CONTAINER

Tall Container	
20 L x 12 ¼ W x 6 ⅛ H (in)	510 L x 310 W x 156 H (mm)
IN-PIC-16	

SPECIAL FEATURES

- *Autoclavable*
- *Made of PEI material (high-temperature plastic)*
- *High durability against automated washing*
- *Transparent amber color for easy instrument identification*
- *Easy locking, removable cover with removable silicone gasket that can be replaced*
- *Lightweight*
- *Combine with Instru-Zyme for optimal pre-cleaning*

Transport Containers

These containers are designed with a silicone gasket and locking cover to reduce spills and leakage while transporting contaminated instruments. Also, you can easily identify content through the transparent amber color. Pair this product with our Instru-Zyme Pre-Cleaning Enzyme Gel for best results.

TRANSPORT CONTAINER

Small, Short Container	
13 9⁄16 L x 15 5⁄8 W x 4 5⁄16 H (in)	345 L x 398 W x 110 H (mm)
IN-PIC-14	

TRANSPORT CONTAINER

Large, Short Container	
20 5⁄8 L x 15 5⁄8 W x 5 5⁄16 H (in)	524 L x 397 W x 135 H (mm)
IN-PIC-12	

TRANSPORT CONTAINER

Small, Tall Container	
13 9⁄16 L x 15 5⁄8 W x 7 ½ H (in)	345 L x 398 W x 190 H (mm)
IN-PIC-13	

TRANSPORT CONTAINER

Large, Tall Container	
20 5⁄8 L x 15 5⁄8 W x 7 ½ H (in)	524 L x 397 W x 191 H (mm)
IN-PIC-11	

Silicone Small Parts Boxes

Don't sweat the small stuff. Made of silicone, these boxes are perfect for keeping extra delicate small parts and accessories organized and protected.

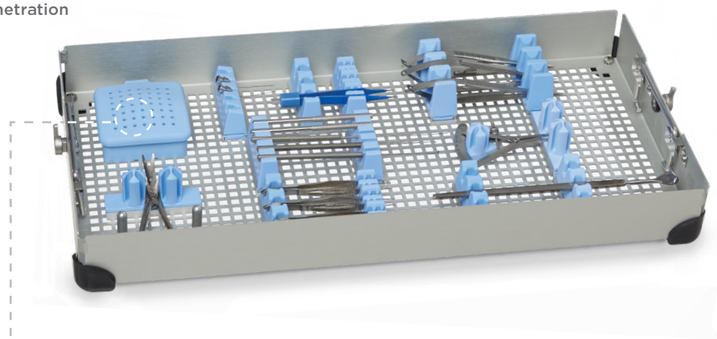
SILICONE SMALL PARTS BOX

3x3" Small Parts Box	
3 L x 3 W x ¾ H (in)	76 L x 76 W x 19 H (mm)
IN-2652	

SILICONE SMALL PARTS BOX

3x6" Small Parts Box	
6 L x 3 W x ¾ H (in)	152 L x 76 W x 19 H (mm)
IN-2653	

- Made entirely of medical grade silicone
- Maximum protection for small parts
- Tethered cover to prevent accidental loss
- Can be attached to trays or placed on posts for easy removal
- Textured internal surface and proper ventilation for efficient sterilant penetration



Small Parts Box is shown within tray. Tray is shown without cover for illustrative purposes only.

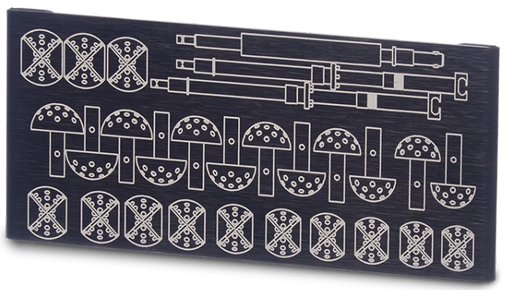
Plaque Options

A variety of plaque colors are available to help identify specific sets by procedure or service type. Affix them to our trays and modules using our standard screws. Common identification uses are for bar code placement, tray name labels, or other custom information. Laser engraving of plaques is provided at an additional cost.

Our in-house laser engraving capabilities allow us to personalize trays with custom identification and/or specifications, such as interior instrument descriptions, illustrations, exterior procedure types, specialty, or facility information.

PLAQUES

Plaque Assembly for Trays		
1 L x 4 ⅜ W (in) 25 L x 111 (mm)	IN-2550-01	SILVER
1 L x 4 ⅜ W (in) 25 L x 111 (mm)	IN-2550-05	BLACK
1 L x 4 ⅜ W (in) 25 L x 111 (mm)	IN-2550-15	BLACK
Please indicate desired color of plaque using corresponding number below in place of XX using the color options table.		
4 ⅜ L x 2 W (in) 111 L x 51 W (mm)	IN-2600-XX	
2 L x 2 ⅛ W (in) 51 L x 56 W (mm)	IN-2300-XX	

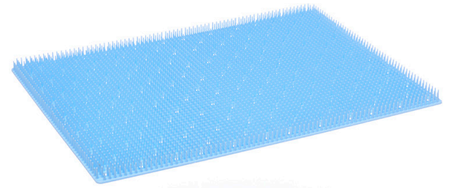


COLOR OPTIONS

Steam Sterilization These anodized aluminum plaques for use with steam only.			*Low-Temp Sterilization* Plaques have a coating that specially withstands low-temperature sterilization.	
01	SILVER		N/A	
02	RED		RED	12
03	GREEN		GREEN	13
04	BLUE		BLUE	14
05	BLACK		BLACK	15
07	PURPLE		PURPLE	17
08	ORANGE		N/A	
10	MINT GREEN		N/A	

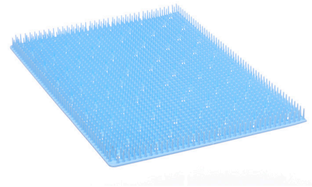
Finger Mats

These textured silicone instrument cushion mats are available in a variety of sizes and textures to fit all of your instrument protection needs.



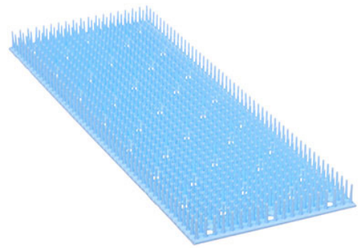
FINE FINGER MAT

Full Sheet	
19 L x 13 W (in)	483 L x 330 W (mm)
IN-2616	



FINE FINGER MAT

Half Sheet	
9 ½ L x 13 W (in)	241 L x 330 W (mm)
IN-2617	



FINE FINGER MAT

Quarter Sheet	
4 ¾ L x 13 W (in)	121 L x 330 W (mm)
IN-2618	

Guardian™ Tray

Simple, small instrument sets now have a new home. Our silicone finger mats with sidewalls provide a safe and pliable environment for them to reside in.

GUARDIAN TRAY

Anodized Aluminum Tray with Finger Mat	
10 L x 6 W x 1 ¼ H (in)	254 L x 152 W x 32 H (mm)
IN-1310	

- **Accommodate a wide variety of small instrumentation**
- **Feature built-in and vented silicone finger mats**
- **Reduce instrument repair and replacement costs**
- **Allow maximum sterilant penetration**
- **Prevent moisture accumulation**

Instru-Zyme®

This powerful enzyme and detergent formulation is designed to assist in the removal of blood, tissue, mucus and other proteinaceous materials. Use this product with our transport containers for a simple solution to water and detergent.

INSTRU-ZYME

Properties:
- Specific Gravity: 1.200
- pH: 7.8
- Tropical Fragrance
- Color: Light Blue
- Form: Liquid Gel

6 Bottles/Case	IN-1032

- **Will not stain instruments or equipment made of: metal, plastic, glass or rubber**
- **Non-corrosive**
- **Biodegradable**
- **Sustains moisture during transport**
- **Provides a ready-to-use, neutral pH enzyme solution**
- **Reduces heavy instrument transport weight as compared to liquid-filled trays**
- **Minimizes potential exposure due to splashing**
- **Spray applicator for even coverage of soiled areas**
- **No rinsing necessary before automated processing**

Rounders® Point Guards

Wrap your trays with confidence. Point Guards are engineered to sit securely on almost any tray corner. Prevent holes and tears in your sterilization wrap caused by surgical trays that are heavy, have sharp corners or are improperly handled.

ROUNDERS POINT GUARDS

80/Bag	IN-7330

- **Air cushion tray corner protection**
- **Help avoid compromised sterility in the O.R.**
- **Can be used in steam, ethylene oxide and low temperature plasma sterilization**
- **Reusable and economical**
- **Patent #9119611**
- **Non-sterile**
